

The fundamental aim is ensuring your child has everything they could ever need to excel.

The New G+ Classes

Our latest innovation is geared to affording our highest achievers an opportunity to further advance their studies.

Study at higher levels necessitates focus and commitment on the part of the student to secure long-term success. Our early focus on independent learning blossoms around the G Level stage. The new classes will support and nurture your child as they continue their studies ensuring they are empowered to progress through to Kumon program completion, a milestone all of our students strive for. Important information you need to know is included below.

1

The G+ classes will run every Saturday from 9:00am to 12:00pm with your child attending at an agreed time. Class will occur in a quiet environment conducive to study.

2

The Saturday classes are intended to replace a given student's weekday time-slots. Your child may spend up to one hour per subject in class on the Saturday.

3

The G+ class is by invitation only and requires that a student commit to conduct expectations. Not all students at G level and above will be permitted to attend.

4

During session your child will be ably assisted by highly experienced Kumon Instructors and Assistants trained specifically for instruction in G level and above.
